# ABOUT HIFU

HIFU, or High Intensity Focused Ultrasound, is a revolutionary treatment for a non-surgical approach to a traditional surgical facelift.

It works by penetrating energy into the Superficial Muscular Aponeurotic System- the muscular system of the face, this is the same system that is manipulated during a surgical facelift, the deep dermis, and subcutaneous fibrous tissue.

Energy is transmitted into these layers causing controlled trauma. This then causes contraction and tightening of the muscular layer, leading to repair, and immediate collagen stimulation, rejuvenating, firming, and plumping the skin.

## PRICES

(INTRODUCTORY PRICES)

FULL FACE AND NECK \*£695

FULL FACE \*£575

LOWER FACE \*£450

NECK \*£195

# MEET KIRSTY

## WHAT WERE YOUR CONCERNS ABOUT YOUR SKIN/FACE?

I was feeling old as I had noticed I was getting 'jowells' and a Turkey neck! It didn't reflect the person I felt I was on the inside.

## WHAT WERE YOUR EXPECTATIONS OF THE TREATMENT?

I had seen pictures from another lady on Instagram that had HIFU with Babs, and thought if it works for her, why not me!

## WHAT ARE YOUR OBSERVATIONS ABOUT YOUR SKIN AND FACE POST TREATMENT?

I'm lucky to say that I've never really had any skins problems in my life and felt I've looked after it relatively well so was frustrated to see the other signs of ageing. After the treatment, I was advised things to expect: bruising (none), some numbness (slight, but didn't worry about it), and some tightening (which just felt like I'd been out on a sunny and windy day). Other than that, I had no side effects. I was so excited to return post treatment to see my before and after pictures.

## WHAT WAS YOUR OVERALL EXPERIENCE LIKE?

Well informed, pre, post and during treatment. No hard sell or empty promises. Babs knows exactly when to chat, when to reassure and when to let you relax and enjoy the experience. I loved the fact that she was as excited as I was to see the results!

Even if it takes a year for you to save up, I would highly recommend HIFU with Babs as it's worth every single penny!!

BEFORE HIFU

AT 12 WEEKS

BEFORE HIFU

AT 12 WEEKS

**INTRODUCING**  
THE PERFECT NON-SURGICAL FACELIFT

**HIFU + IPL**

**FULL HIFU FOR FACE & NECK
